1 May 1985

Dr. George A. Keyworth II  
Director, Office of Science  
& Technology Policy  
Old Executive Office Building  
Washington, D.C. 20500

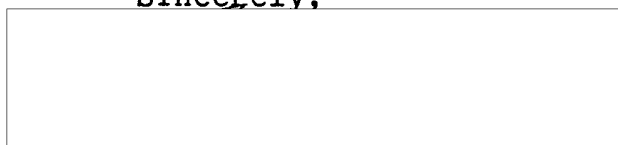

Dear Dr. Keyworth:

On behalf of the Office of Training and Education, I want to thank you for taking time from your busy schedule to address our first Seminar on Science and Technology Forecasting. I believe the Seminar was a great success due to speakers like you who took the time to meet the participants.

The Intelligence Community is alert to the long term dangers and opportunities posed by rapidly advancing technologies. It was particularly useful for the participants to hear from a consumer of the intelligence product who is well informed on the technical and policy aspects of U.S. problems.

I hope you will be able to participate in future runnings of this Seminar. I look forward to seeing your guidance translated into better S&T forecasts.

Sincerely,

Director  
of  
Training and Education.
